Tares Among the Wheat: *The Sequel to “A Lamp in the Dark”*

DVD \$24.95

Running Time: 3 hours

DESCRIPTION

“Tares Among the Wheat” will challenge what most scholars believe about Bible history, as well as the origin and purpose of the new Bible movement that has flooded the Christian market around the world.

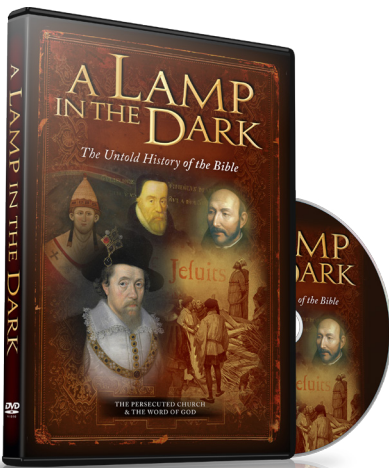

The ensuing controversy surrounding these events is, perhaps, the most incredible untold chapter in Bible history. It is a story that (while quite true and well documented) a vast majority of modern academics know nothing about. Yet most of what today’s scholars believe about manuscript evidence is based on the events of this era, and the footnotes in your Bible are the proof of it.

Powerful Resource for:

- Bible Study Groups
- Church Presentations
- Home School Education
- Witnessing Tool

Topics discussed in this documentary:

- Unfolds the history of the Bible in the 19th and 20th centuries.
- Filled with rich visual graphics and dramatic re-enactments of key historic events.
- In the 19th century, a revolution in biblical scholarship was prompted by the publication of a never-before-seen manuscript called Codex Sinaiticus. The work was allegedly “discovered” by a German scholar named Constantine von Tischendorf, who declared this codex to be the oldest Bible ever found. Yet shortly after his discovery was published, a renowned Greek paleographer named Constantine Simonides came forward to declare that the manuscript was no ancient text at all, but had been created by him in 1840.
- New details about the Counter Reformation and its origins. The Jesuit plan to seize control of the Bible.
- The history of higher criticism as a weapon against the Bible. The history of Codex Sinaiticus & Codex Vaticanus. Westcott, Hort and the Revision of 1881.

A Lamp in the Dark: *The Untold History of the Bible*

DVD - \$24.95

Running Time: 3 hours

D E S C R I P T I O N

- Enter into a world of saints and martyrs battling against spies, assassins and wolves in sheep's clothing
- Reveals critical information often overlooked in modern histories

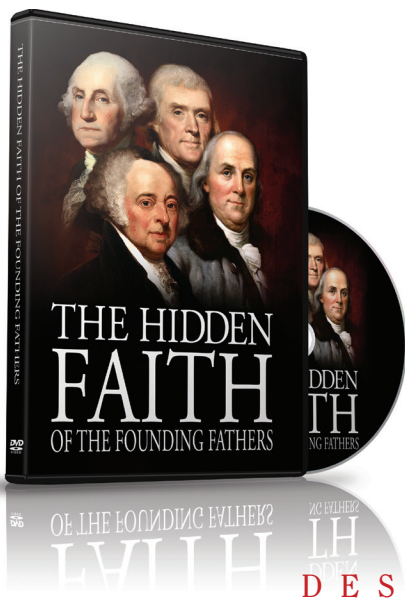

Throughout the Middle Ages, the Papal Inquisition forbade biblical translation, threatening imprisonment and death to those who disobeyed. Learn the stories of valiant warriors of the faith, who hazarded their lives for the sake of communicating the Gospel to a lost and dying world.

Once the Bible was published to all, the world was turned upside down through the Protestant Reformation. The Reformers subdued whole kingdoms by preaching the grace of God, and exposing the unbiblical doctrines of Rome. But in response, the Vatican would launch a Counter Reformation to destroy the work of the Reformers, including the bibles they produced.

A Lamp in the Dark was filmed on locations in England and Belgium, featuring leading Bible scholars and chief curators from the British Library in London, Erasmus House in Belgium, and the William Tyndale Museum in Vilvoorde.

Topics discussed in this documentary:

- The history of the early Church
- How the Inquisition began to silence Christians and outlaw the Bible.
- The great Bible translations, including Wycliffe, the Geneva, and King James 1611.
- The Protestant Reformation and the reasons behind it.
- Key doctrines confronted by the Reformers (i.e. Inspiration of Scripture, Salvation, Transubstantiation, Veneration of Mary, and Papal claims of authority).
- The Counter Reformation that began with the Jesuit Order in 1540.
- The Vatican's involvement with the Critical Text and their influence over world-wide biblical translation in the 20th century.

The Hidden Faith of the Founding Fathers

DVD - \$19.95

Running Time: 3 hours

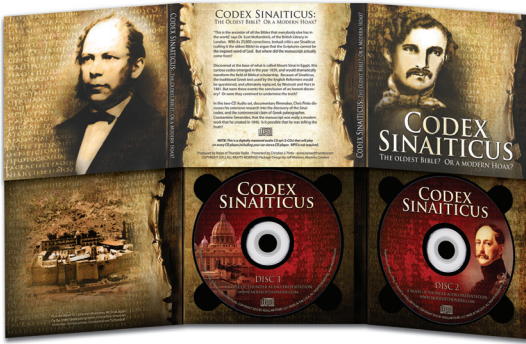

DESCRIPTION

This is perhaps the first and only documentary to go where no film has ever gone before, confronting the little known beliefs of America's founders. While it is clear that the Puritans and Pilgrims held to traditional Christian beliefs, it is important to remember that the American Revolutionaries came about 150 years later. How did these men view Christianity? Conservative Christian leaders often claim that the revolutionaries were godly men who were trying to build a Christian nation. But was their faith the true faith of the Bible? Or is it possible that the exact opposite is true?

Biblical Christianity begins with faith in the Person of Jesus Christ Himself. But what did the founders think of Him? Did they believe the Gospel message? Were they fighting for Christianity, or against it?

Topics discussed in this documentary:

- An exhaustive investigation into the faith of Thomas Paine, Thomas Jefferson, Benjamin Franklin, John Adams, George Washington, and much more.
- Bartonian history, where we confront David Barton's fabled view of American history.
- The role of freemasonry in the founding of our country.
- The Biblical world view, confronting the idea often suggested that the founders were "deists," or "agnostics" – whereas, according to the Bible, they were antichrists.

Washington in the Lap of Rome

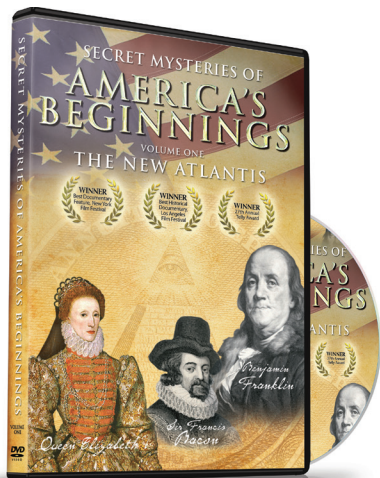

Book - \$19.95

DESCRIPTION

“Romanism is the dominant power in the Capitol of the United States.”

In 1888, a man named Justin D. Fulton gave a warning to the people of America through his book, *Washington in the Lap of Rome*. In it, he details how the Roman Catholic Church flooded the new capital city just after the American Revolution, with the intention of seizing control of the United States by covert means. By 1888, the situation was such that Fulton wrote: “Romanism is the dominant power in the Capitol of the United States.” In the 19th century, the author was convinced that if Americans did not awaken to the problem, it would be a matter of time before Jesuit priests would rule our country, and the Inquisition would come to American soil.

This 2012 edition of Fulton’s book also presents a seventy page forward by documentary filmmaker, Christian J. Pinto that attempts to answer whether or not there was any truth to Fulton’s warning. Pinto reveals the influence of Rome from 1888 to the present time, documenting the role of the Vatican during World War II, with the development of the CIA, the Vietnam era, the Jesuit origins of Communism, McCarthyism, the Mexican border issue, the rewriting of American history, the Catholic-dominated Supreme Court, the manipulation of the White House, and even the modern presidency of Barack Obama.

The Kinsey Syndrome

DVD - 19.95

Running Time: 2 hours and 45 minutes

DESCRIPTION

Alfred Kinsey is the man most often pointed to for having destroyed the morality of American society in the 20th century. His “Kinsey Reports” are considered among the most subversive books ever written, alongside Mein Kampf and the Communist Manifesto.

This documentary shows how "The Kinsey Reports" that were developed in the 1940's and 50's were responsible for the dramatic shift in America's view of traditional values. Historians have even placed U.S. history into Pre-Kinsey and Post-Kinsey categories, because of the sharp difference in American culture before and after. Kinsey is not only considered the father of the sexual revolution, but also of the abortion movement, the gay rights movement, the widespread use of pornography in our culture, and for the increase of violent sexual crimes in American society. While his “research” has been exposed for its fraudulent nature, it was used to change the laws concerning sexual predators in America, resulting in the minimal sentences so often given to rapists and child predators.

Also featured are extensive interviews with Dr. Judith Reisman, who worked with the Department of Justice during the Reagan Administration, and has fought against Kinsey's influence for more than thirty years.
